

Presentation Slides: Making the Most of Your Internship

Slide 1: Title Slide

Title: Making the Most of Your Internship: Navigating Challenges and Building Your Career Path

Footer: Raqeeb Rameez | Team VisuaLit | Mawkish Tech

(Speaker Note: "Hi, I'm Raqeeb. Disclaimer: I am not HR. I am not a lecturer. I am just a senior who went through what you are about to go through.")

Slide 2: Who Am I? (The "Non-Traditional" Path)

Title: Not Your Average Intern

Visual Ideas: Collage of VisuaLit, Mawkish Tech, Odoo, Flutter, React logos.

- CS Undergrad (IIT)

- **Co-Founder & Product Lead** @ VisuaLit (Accelerator)
- **Technical Implementation Officer (Odoo)** @ Mawkish Tech
- **Freelance Developer & Designer**

(Speaker Note: "I'm a CS student, but my role isn't just coding. I handle business implementation, sales platforms, and pitching. This hybrid approach is why I'm talking to you BIS students today.")

Slide 3: The Gap

Title: Why You Need This Internship

Visual Ideas: Split screen. Left: "University" (Theory). Right: "Industry" (Chaos).

- **The Expectation:** BIS = Client Facing? (Not always).
 - **The Reality:** You define the role. You can be the Tech Lead or the Biz Lead.
 - **The Skill Gap:** Learning how to deliver, not just submit.
-

Slide 4: The BIS Landscape

Title: Pick Your Fighter (Possible Careers)

- **Business Analyst (BA) | Systems Analyst**
- **Project Manager (PM) | Product Owner**
- **Odoo/ERP Implementer | IT Consultant**
- **Database Admin | QA Engineer**
- ...and yes, **Developer**.

Slide 5: The Elephant in the Room

Title: What Scares You?

Visual Ideas: Large Question Mark.

(Activity: Ask the crowd for their fears. Write them on the whiteboard.)

Slide 6: The Fear Cheat Sheet (Backup)

Title: We All Thought This...

- **Fear:** “I don’t know enough technical stuff.”
 - **Reality:** You learn on the job.
 - **Fear:** “I’ll make a huge mistake.”
 - **Reality:** You will. Own it and fix it.
 - **Fear:** “I’m just an intern.”
 - **Reality:** Fresh eyes are valuable.
-

Slide 7: The IIT Internship Roadmap

Title: The Process (Don’t Panic)

1. **CV Prep** (Highlight Domain Knowledge + Soft Skills)
 2. **Applications** (Don’t just rely on the portal; LinkedIn DMs work)
 3. **Interviews** (Tech + Behavioral)
 4. **The Offer** (Read the contract)
 5. **The Logbook** (The Westminster Requirement - Do not leave this until the end!)
-

Slide 8: My Hunt

Title: My Resume vs. Reality

Visual Ideas: Screenshot of Portfolio Website vs. Old Generic CV.

- **The Mistakes:** Generic CVs, applying without research.
 - **The Rejections:** “Ghosted by 5 companies.”
 - **The Fix:** Built a Portfolio, focused on showing work.
-

Slide 9: The “Internship” Pivot

Title: 24/7 vs. 9-5

- **The Accelerator:** Building VisuaLit while working. Pitching to investors while fixing bugs.
 - **The Standard:** “It couldn’t be a university project. It had to be Production-Ready.”
 - **The Balance:** Freelancing (Odoo Implementation) + Startup.
 - **The BIS Superpower:** “I understood the Code and the Business Model. That makes you unstoppable.”
-

Slide 10: Break

Title: Take a Breather

Text: 10 Minutes. Stretch. Check phones.

Slide 11: The War Room

Title: Activity: The Challenge
(Real problems with no single right answer.)

- **Form 6 Teams.**
- **Receive your “Challenge Card.”**
- **Discuss:** Both sides have a point. What is the compromise?
- **Collaborate:** You need multiple perspectives to solve this.
- **Pitch:** Share your decision in 60 seconds.

Slide 12: The Teams

Title: What is your Challenge?

- **Team 1: Requirements** (Student Need vs Admin Rules)
- **Team 2: Tech Strategy** (Buy vs Build Debate)
- **Team 3: Design** (Marketing vs User Experience)
- **Team 4: Data** (Defining “Active User”)

- **Team 5: Management** (Dev vs BA Conflict)
 - **Team 6: Security** (Safety vs Speed)
-

Slide 13: Role Cheat Sheet 1 (Strategy & Tech)

(Project this during discussion)

BUSINESS ROLES

- **Business Analyst (BA):** Translates “Business Want” -> “Tech Need”.
Task: Find the compromise between stakeholders.
- **Project Manager (PM):** Manages Priorities.
Task: “Can we do this cheaper/faster?”

TECH ROLES

- **Tech Lead:** Evaluates Risk and Feasibility.
Task: “Is this code actually buildable?”
 - **Security Analyst:** Evaluates Safety.
Task: “Where is the vulnerability?”
-

Slide 14: Role Cheat Sheet 2 (Data & Product)

(Project this during discussion)

DATA & DESIGN

- **Data Analyst:** Defines the Truth.
Task: “What do the numbers actually mean?”
- **Product Owner:** Protects the User.
Task: “Will the user actually click this?”

GENERAL SKILLS

- **Communication:**
Task: De-escalating conflicts and explaining technical things simply.
-

Slide 15: Kahoot? (Optional)

Title: Quick Quiz: Corporate Survival Guide

(Note: Run if time permits.)

Slide 16: Closing

Title: Q&A + Connect

Visual ideas: LinkedIn QR Code.

“Your career is a sandbox. Go break things.”
